

## Air Treatment Modules

Ohio Medical desiccant dryers are ideal for medical, laboratory, and industrial applications. All models are configured for minimal use of purge air. All dryers are available as standalone units or as complete Healthcair Treatment Modules (HCTM). Modules for medical air packages (as shown) include all needed components for NFPA compliance.

CFM	Part#	Also Known As
24 CFM	233504	DME012-Rx
