

Oil-less Rotary Scroll Air Compressors (7.5-10 HP)

Ohio Medical oil-less scrolls are well proven compressors for medical, laboratory, and industrial applications. They are available in low pressure and high-pressure versions. Both 7.5 HP and 10 HP models are offered to meet required capacities. Common accessories, such as temperature switch, relief valve, isolation valve, etc. are available. Bare scroll air ends are applicable for Ohio Medical and Hitachi scroll compressor systems. Complete modules with motors, belts, belt guard, aftercooler, and relief valve, are mounted on a common base for easy retrofit in the field.
