

Cycling Refrigeration Dryers

If your application requires the use of refrigeration type dryers, the Ohio Medical line is your best choice. Providing consistent dew points, these dryers are the most energy efficient models in the industry, with savings of up to 80% vs. conventional dryers. Key features include:

- Digital controls that adjust to system air demand and ambient temperature
- Digital LED display of outlet air dew point
- Programmable operating parameters
- Timed solenoid drain with adjustable open and close times
- Environmentally friendly, with R134A or R407C refrigerant and non-toxic silica thermal mass

Max Rated Flow SCFM	Part #	Inlet/Outlet Connections	Power Supply	Height	Width	Depth	Weight (lb.)	Prefilter	Afterfilter
