

## Filters: Heavy Duty Oil Mist

Heavy duty oil mist filters, with connection sizes from 3” to 5”, are designed for high capacity applications. They are ideal for capturing oil fog, mist, or smoke from the exhaust of oil flooded vacuum pumps. The all-steel housing features 1/4” inlet/outlet gauge taps, as well as 1/2” drain taps.

Part #	233755	233756	252717
