

Stainless Steel Liquid Ring Vacuum Pumps: Two Stage

Two stage liquid ring vacuum pumps are offered in all stainless steel construction. They are ideal for food, pharmaceutical, and chemical applications, where long term durability and resistance to corrosion are needed. All pumps are fitted with Teflon mechanical seals. A list of popular related accessories, such as separators, inlet filters, heat exchangers, etc. are provided for each model. Simply click on “more info” below for your size pump for complete information.

Model	27C06TM	210C06TM	21506TM	220C06TM	225C06TM	240C06TM
Part #	220101	220102	220103	220104	220105	220106
Motor HP	7.5	10	15	20	25	40
Motor RPM	1750	1750	1750	1750	1750	1750
Inlet/Discharge Connections	1 1/2"	1 1/2"	2"	2"	2"	3"
dB(A), Average 60 Hz	67	67	68	68	68	79
Weight (lb.)	188	209	287	309	342	552
Average Service Liquid (GPM)	2.7	2.8	5.5	7	7.5	8.2
